PREAMBLE

These rules set forth the detailed rules of the FEI WBFSH Dressage World Breeding Championship for Young Horses, which are to read in conjunction with the pertinent FEI Statutes, FEI General Regulations, FEI Dressage Rules and FEI Veterinary Regulations.

It is acknowledged that every eventuality cannot be provided for in these Rules and in any unforeseen or exceptional circumstances it is the duty of those responsible to make a decision in a sporting spirit and approaching as nearly as possible the intention of these Rules and of the General Regulations.

The FEI may therefore make exceptions to the rules, taking fairness and development of the sport into account.

CHAPTER I. GENERAL PRINCIPLES:

1. The FEI WBFSH Dressage World Breeding Championship for Young Horses will be organised under FEI Rules in cooperation with the World Breeding Federation for Sport Horses (WBFSH). Entries can only be made by National Federations, but the selection procedure shall be decided upon by the respective NF in close cooperation with the WBFSH member studbook(s) in the respective country. Only horses registered into WBFSH member studbooks at birth, can be nominated and entered in the championships.
2. The list of the WBFSH member studbooks and their country is available on the WBFSH website: <https://www.wbfsch.com/studbook-members>
3. Minimum Eligibility Requirement (MER) to be achieved as a combination Athlete/Horse (preliminary or final test):
 - 5- and 6-year-old horses: a total score of minimum 75%
 - 7-year-old horses: a total score of minimum 70%

This score must be achieved at least once at a CDIYH, or within a National selection-Selection criteria-Procedure in the calendar year of the Championship, until the date of nominated entries.

For MERs to be achieved within a National Selection Procedure, NFs are required to use the FEI tests for 5-, 6- and 7-year-old horses.

A copy of the proposed National Selection Procedure (if used by an NF) must be submitted to the FEI at the end the year prior to each concerned qualification season (by the end of the December at the latest) for review and approval by the FEI and WBFSH. For example, for the 2025 FEI WBFSH Dressage World Breeding Championship, the NF must submit the proposed National Selection Procedure no later than 31 December 2024.

The FEI and WBFSH must confirm its approval/non approval of the National Selection Procedure by 31 January of the year of the World Breeding Championship.

If the National Selection Procedure is not submitted by the above deadline or the National Selection Procedure is not approved by the FEI and WBFSH, only MERs obtained at CDIYHs will be accepted.

The result-Record of Results (RoRs) obtained through the approved National Selection Procedure has to must be confirmed-submitted by the NF with the nominated entries.

For MERs to be achieved, NFs are responsible for ensuring that the level of tests used at their National Selection events, is equivalent to the level of the FEI tests for 5-, 6- and 7-year-old horses.

4. Horses can only participate in the selection procedure of one (1) NF.

It's the responsibility of the Athlete and Owner to ensure that the selection procedure in which they participate offers the possibility to be selected and entered for this Championship.

5. The age of horses is defined as per the year of birth. Horses born in the Northern Hemisphere between 1st January and 31st December of the same year, fall into the same age group. Horses born in the Southern Hemisphere between 1st August and 31st July of the following year, fall into the same age group. If the World Breeding Championships take place after 1st August, horses born in the Southern Hemisphere will compete in the same age category they qualified in.

6. Horse's Entries:

6.1. NFs with WBFSH member studbook(s) in their country:

These NFs receive a quota, determined in close co-operation of the WBFSH and FEI, for each age category. The quotas are for home-bred horses, meaning that they have been registered at birth into a studbook originating in the country of the nominating NF. These horses must have a Universal Equine Life Number (UELN) that corresponds to the studbook of origin.

The quota distribution for each age category is as follows:

6.1.a. Specific quota distribution:

- Germany: 8, home-bred horses only.
- The Netherlands: 6, home-bred horses only.
- Spain: 5, home-bred horses only.
- Denmark: 4, home-bred horses only.
- Sweden: 4, home-bred horses only.

6.1.b. Other quota distribution:

- Belgium, France, Great Britain, Ireland, Poland, Portugal and United States of America, each NF: 2.

6.1.c. All other NFs with WBFSH member studbook(s) in their country:

These NFs may enter up to one (1) home-bred horse in each age category (registered at birth into a studbook originating in the country of the nominating NF, with a Universal Equine Life Number (UELN) that corresponds to the studbook of origin).

6.2. Exceptions to 6.1.b and 6.1.c:

NFs with no home-bred horses (registered at birth into a studbook originating in the country of the nominating NF, with a Universal Equine Life Number (UELN) that corresponds to the studbook of origin) having achieved MERs during their

selection procedures, as defined in the present guidelines:

These NFs may nominate a foreign-bred horse, provided that the studbook of origin of the foreign-bred horse gives its approval and the athlete of the foreign-bred horse has the sport nationality of the nominating NF.

For such nominations to be accepted, official confirmation that no home-bred horses achieved the requested MERs must be submitted to the FEI with the nominated entries list, by the respective NF (following their consultation with the relevant WBFSH member Studbook within that respective country).

6.3. NFs with no WBFSH member studbook(s) in their country:

These NFs may enter up to one horse in each age category and the athlete of the horse must have the nationality of the nominating NF. These horses must be registered as foals into a WBFSH member studbook and this studbook has to give its approval.

7. Athlete's Entries:

The FEI General Regulations apply. As an exception to the FEI General Regulations, NFs may enter foreign athletes provided the athlete's own NF approves.

8. In the Final competition of each age category, no NF may have more horses than the number of places originally allocated under 6.1 and 6.3.
9. Each athlete may start a maximum of two horses in each age category.

CHAPTER II. ENTRIES.

1. All entry deadlines will be clearly stated in the approved schedule (Nominated, Definite and Last date for Substitution).
2. All entries must be submitted and processed via the FEI Entry System.
3. NFs are responsible to ensure that all data concerning Studbook, Sire, Sire of Dam, Breeder and Owner are correctly stated in the FEI database for the concerned horses, before the closing date of nominated entries are made in the FEI Entry System. The above-listed specific information is compulsory.
4. All nominated NFs must inform the FEI before the closing date of nominated entries if they have foreign athlete(s) competing under their own quota, in order to avoid any confusion in the number of nominated horses entered and/or nominated NFs.
5. It is recommended that the OC defines the definite entry deadline by taking into consideration the national selection trials of WBFSH member studbooks.

CHAPTER III. JUDGES.

1. Rotation of Judges & administrative review:
2. The FEI is responsible for the appointment of the Ground Jury panel (President, commentating Judges and Members) after consultation with the JPS and the WBFSH. The ~~OC shall, in close cooperation with the~~ FEI and WBFSH will, establish a judge's rotation system for all competitions.
